Hôpital Bon Samaritain

Limbé, Haiti

Fall 2011

As we look over the past year at HBS Limbé, we want to give a special THANKS

For Joanna who is doing well at the age of 88. She is currently in Florida and will be celebrating Thanksgiving with her family.

For the new sterilizers (see above), oxygen generators and surgery lights generously donated by HBS friends in Iowa and Minnesota.

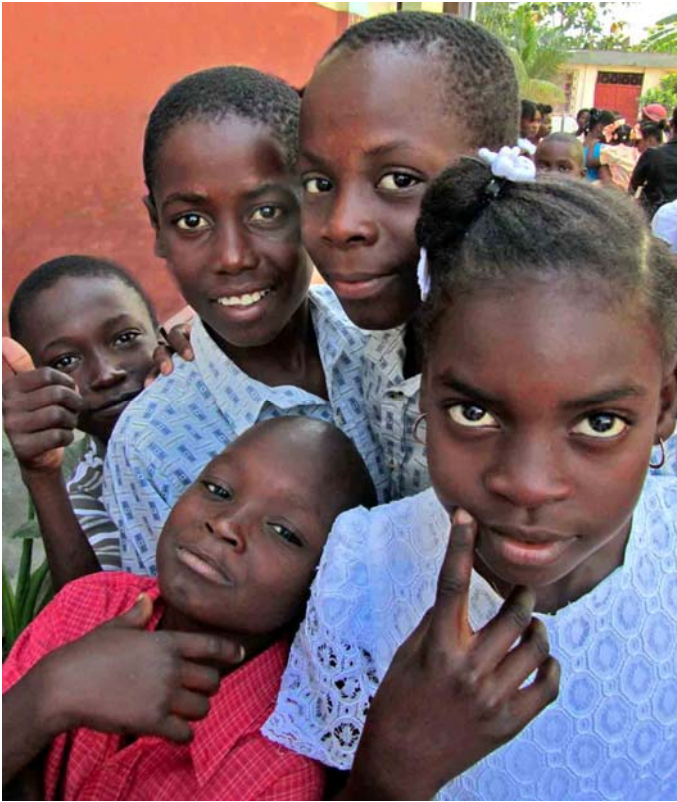

For the many volunteers (62) that came to HBS this year and gave their time and effort to help better the lives of the Haitian people of the Limbé valley.

For Louvens Louis, Reece Bonsam and Chebanie Chery who with the help from their sponsors were able to start their first year of school this October. Guivenson has started in his fourth year of school.

For all of you that continue to support us in our quest to provide much needed healthcare in a country where the suffering has been great, especially in the last two years. Please know that without your help we would not be able to accomplish these goals.

For the new HBS Motor House and Generators, donated and installed by HBS friends in Iowa and Canada, very much needed to be able to carry on our work in Haiti.

For the help that we received from HBS friends in Canada to upgrade our water system to continue to provide potable water and better serve the Limbé people.
