Hôpital Bon Samaritain
Limbé, Haiti

Merry Christmas

As the year draws to a close, we look back and see how much we have achieved, realizing how much more we need to accomplish this coming year! HBS has come a long way towards full building renovations and advanced medical care. Now we need your help to see these projects through.

Please donate, however great or small, this end of year to make these dreams come true!

HBS continues to see a steady stream of patients along with volunteers, surgical and medical groups.

Happy New Year!

Joanna Hodges and Luc Colvert (HBS Electrician) April 2014. Joanna really enjoyed her two week stay in Haiti this year.

HBS Re-Roofing project is still ongoing. Many of the roofs are over 40 years old requiring replacement of the underlying wood structural supports as well.

Extensive renovations are being done to the lab, including new countertops, estimated completion early 2015.

The cafeteria roof has been redesigned and replaced. The work teams arriving in January 2015 will be working on the electrical system and installing a new ceiling.
